VOLUNTEER & COMMUNITY

Heroes of Star City: In the year of 2018, I dressed in costume as Black Panther and Spider-Man within a cosplay group to do special visits to the local Children's Hospital, participated in local events doing pictures and interactions with the public.

Volunteering with Hope World Wide: In Spring 2015, I went to Port-au-Prince, Haiti to serve with disaster relief for two weeks, served at the local orphanage for a week, and built fencing and repaired housing.

TECHNICAL PROJECTS

WeatherClear | 2021

A web application to simply enter a city to view the current weather forecast.
- Built weather application from scratch and modified page content/images using HTML, JavaScript, and CSS for frontend development.
- Integrated OpenWeather API for the app to fetch the real-time data of weather using JavaScript. After each search, a new image populates according to the city name.
- Created a centered card using flexbox to have a responsive, cohesive result.

Gotta Do-It | 2021

A to-do list application to create, complete, and delete tasks.
- Built a functional to-do list using JavaScript. UI built and modified with HTML and CSS. Users can type and add tasks, complete tasks by checking them off, and delete them by pushing the trash button. Users can also clear the whole list with a clear button on the upper right corner.
- Used method "toLocaleDateString" to show the current date to the user.
- Stored user's list to local storage to find the list when page is refreshed or opened.

WORK HISTORY

Help Desk Tier 3 Technician | 2020-Present | Virginia
Telos
- Coordinated with help desk team and repair technicians to ensure rapid response times and follow-up with customers on hardware repairs and returns.
- Processed customer orders as received. Provided additional technical support to end users by troubleshooting and diagnosing hardware errors.
- Researched, identified, and resolved technical problems by testing and repairing customer workbench related hardware.

Assembler | 2017-2020 | Virginia
Lockheed Martin | Siemens | Plastics One, Inc
- Ensured operational success through high-touch communication and collaboration with engineers and leadership teams to quickly troubleshoot and resolve production problems.
- Created a training manual, edited and improved upon company quality procedures for the manufacturing department to adhere to.

Quality Control Inspector | 2016-2017 | Virginia
Fuji Electric Corp of America
- Evaluated problems and made initial recommendations for corrective action to improve line assembly and inspection.
- Conducted inventory inspections throughout the month using self-created data spreadsheets for lean processing and cost efficiency.

Administrative Assistant | 2013-2015 | Virginia
Children Youth & Teen Center
- Updated and compiled household information, family, and visit statistical data for reporting and analysis to determine the average cost and length of stay per family.

Graphic Arts Coordinator/ Sign Manager | 2006-2013 | Virginia
Quantico Marine Corps Exchange
- Led the design and creation of indoor and outdoor marketing collateral (logos, brochures, posters, signs) using graphic based programs (Adobe Photoshop, Stylus Select, and Ignite) for diverse SMB clients and customers.
